Reference Letter

To whom it may concern,

It is with great pleasure that I recommend Sabine Kauker as a spa-visiting specialist to your property. Sabine Kauker has visited Amankora, Bhutan as a spa-visiting specialist two times, in 2012 and 2018, for a period of approximately two and a half months. Her primary roles were to provide treatments and services to Amankora guests and conduct Reiki (1st and 2nd degree) and Chinese Foot Reflexology training for spa team members across 5 lodges of Amankora.

As a Spa Manager, I had the opportunity to work closely with Sabine Kauker from 14th September to 30th November 2018. I truly appreciate her contribution and dedication to development of our spa team members. She is a driven and organized spa trainer who extensively develops therapeutic skills and knowledge of our spa therapists. With regards to training, Sabine is versatile enough to meet the changing demands of hospitality industry and develop training plans to accommodate those demands and requirements. I highly recommend Sabine for this specific purpose.

In terms of quality of treatments, Sabine is a dedicated spa-visiting specialist who is passionate about health and overall wellbeing. With a range of qualifications and skills in holistic therapy, her healing work is genuinely based on "The Basics of Health" which supports natural healing process. Sabine uses her 20 years of work experience and individually chosen elements of her "toolbox" to activate self-healing process and achieving an overall life balance. As a result, guests are very satisfied with her approach and outcomes.

With that said, I am confident in my recommendation and believe that Sabine Kauker would be a great asset to your property. Should you require further assistance please do not hesitate to contact me directly.

Kind regards,

(Ms. Saowapa Thumapun)
Spa Manager
